The possibility of an utter collapse of the American government with the attendant danger of anarchy and bolshevism has been before the heads of the allied cabinets for several weeks and the necessity for stabilizing her affairs and giving Austria a chance to work out her own destiny was apparent when today's session began.

The council decided to appoint a commission to make a thorough inquiry into the entire question of the economic situation in Europe, with particular reference to Austria. New York, Jan. 25, 1921.
A. H. Hall, Tonopah, Nevada.

Has John Hayes Hammond for at this eleventh hour finally yielded to the solicitations of his friends and permitted them to present his name to President-elect Harding for appointment to a cabinet position? I am sure you will agree that because of his high standing, nation-wide acquaintance, education and judgment and his honorable part in the development of so many states in the Union, Mr. Hammond may well be considered as a broad-gauged representative of the whole United States. It is suggested that you wire to President-elect Harding at St. Augustine, Florida, not later than Thursday evening, strongly urging Mr. Hammond's appointment as a member of his official family, and that you ask your friends to do likewise.

In the 15 nations where such opinions have been expressed, four have been unqualifiedly against entering the third international, one is undecided, three are divided and seven in favor are opposed by determined minorities.

Lenin demanded, among other things, that Socialists organizations must purge themselves of all moderate, defy all national laws, undermine armies, gain control of the press, throw off the allied "yoke," promote a world economic crisis, condemn any league of nations, aid the soviet government and abandon for the blood and fire of "red revolution" all conservative social democratic programs.
